BULLETIN NO. 154

TO: All Distributing Office Service Personnel

SUBJECT: Color Code for G.E. Replacement Styli

Due to its very small size, it is difficult at times to properly identify the size and type of a replacement stylus for the G.E. variable reluctance cartridges.

All styli have an identifying color on the tip of the metal bar above the jewel and can be recognized as follows:

Black	-	1 mil (45 RPM)	Diamond
Red	-	1 mil (45 RPM)	Sapphire
Purple	-	3 mil (78 RPM)	Diamond
Uncolored	-	3 mil (78 RPM)	Sapphire
