BULLETIN NO. 183  
Model "K"

SUBJECT: E.P. Switch Actuators

E.P. switch actuators for Continental and Lyric Phonographs are assembled and mounted differently than on standard Model "K's".

On the Continental and Lyric, the actuator must be mounted on the right-hand end (as viewed from the front of the machine) of the letter push-button bank and the switch operating tab must be on the right-hand end of the actuator.

When ordering E.P. actuators, specify part number F-7742-C for standard Model "K's" and F-7742-D for Continentals and Lyrics.

Either version of the actuators can be readily changed to the other by moving the switch operating tab and associated bracket.
