Wurlitzer, the Greatest Name In Music, is proud to present the world's greatest money-making music systems. Sound sensations. Sound investments . . . headed by the magnificent Model 2400S.

No word picture can do justice to this sparkling new Wurlitzer instrument, visually presented on the opposite page. The appeal of its sleek, colorful cabinet styling is apparent at a glance. A scintillating sunburst graces the back of the record changer compartment and surrounds the eye-catching action of the Wurlitzer Carousel mechanism.

The crisp styling of the chrome-plated steel grille features a see-deep Wurlitzer crest set into a high styled gold star. The cabinet is finished in attractive wood grain of contrasting light and dark shades. The wrap-around kickplate of stainless steel retains its attractive appearance indefinitely.

Here is carefully conceived, eye-catching beauty that pleases patrons, stimulates play, accelerates earnings — a truly great phonograph that will enjoy public acceptance beyond that of its already famous predecessors.

WURLITZER WALL BOX MODEL 5252

SOUND CONSTRUCTION

An accepted favorite is offered you in a new model which will fill your demands to perfection. This striking 104-Selection phonograph will enhance any location, please its patrons and increase your profits.

Seldom has Wurlitzer superb styling and cabinetry construction been so evident. All this beauty is more than skin deep. A new Uni-Cel construction encloses the entire record changer compartment in a vibration-proof metal cell. Heavy gauge steel is utilized in the upper sides, the rear door and the top. Die cast trim sections and aluminum extrusion moldings complete the rigidity of the upper portion of the phonograph. Title strips are neatly displayed directly beneath the non-reflecting inverse dome glass. Number and letter buttons are extra large and increase the ease and speed of selection.

When you choose this location-proven mechanism, you can be confident of infallible service and complete satisfaction. Never before has Wurlitzer built so well or attained such high standards in sturdiness to protect your investment.

WURLITZER MODEL 5207 WALL BOX
104 Selections

Allows 5-10-25c play. Single button selection. Bright chrome case, fully lighted.
DIMENSIONS: 12-1/2" high, 11-3/4" wide, 7-3/8" deep. Weight 20-1/4 lbs.

DYNATONE AMPLIFIER

The Wurlitzer Dynatone Amplifier has been further improved to assure continuous operation and peak performance. Into its location-tested circuitry have been introduced silicon rectifiers and diodes to replace the selenium rectifier and tube previously used. This development reduces heat and extends the useful life of other components.

PLATED CIRCUIT

Wurlitzer pioneered the plated circuit in automatic phonographs. After years of use through many models, this unit has proved extremely dependable. Less than 1/2 of 1% of all plated circuits have been replaced in service. A new flow-on process of manufacture promises even greater reliability.

SOUND FIDELITY

The 100-selection Wurlitzer rounds out an illustrious line of imaginative instruments offering stereophonic music for every location regardless of its size, shape or type.

As for ear appeal, everyone will acclaim the breathtaking Wurlitzer Hi-Fi Stereo Sound. Like its companion models, the lower section of the phonograph is built of specially selected wood to form a resonant chamber for the Dynatone Sound System. Matched speakers produce the full range of sound, giving unusual clarity and presence to each recorded selection.

Model 2410S incorporates such use-proven features as Carousel mechanism, 50c play, Wurlitzer stereo pick-up and Dual Dynatone amplifier. It offers a plug-in stepper which may be installed or removed to meet your requirements.

The Model 2410 phonographs, offered in both stereophonic and monophonic instruments, are truly sound investments in money-making music.
