

WURLITZER

2500

The Ultimate in
AUTOMATIC MUSIC

WURLITZER MODEL 2500—200 SELECTIONS

WURLITZER 2500

more beautiful to see
more enjoyable to hear
more dependable to operate
more profitable to own

Here, by any standard of comparison, is the ultimate in high earning automatic music. Its crisp, clean styling introduces a new motif to automatic phonograph design. No other phonograph can even approach the Wurlitzer 2500 for sheer play-promoting beauty. Its eye-catching appeal cannot go unnoticed. Symphonic blending of shimmering gold and gleaming chrome commands attention. Patrons are impelled to play it. The unique "floating dome" cradles the title strips in specific, programmed sections, immediately visible and legible for patron selection. Selector buttons, too, are cleverly edge-lighted and readily accessible at finger-tip height.

The grille displays a Gothic simplicity, with a rod and bell pattern that delights the eye and provides a three-dimensional effect against a sturdy chromed steel background. This reflective grille is designed to be color-styled for any location. The soft-rose illumination can be varied to gold or blue simply by changing the internal color shields.

The 2500 Cabinet is custom-crafted, using the newest metals and alloys. Heavy chrome plating compliments satiny aluminum extrusions, resulting in a clean, airy appearance. Cabinet sides are constructed of fine woods with applied, soft-grained finish. Coupled to these is a full-width sounding board that houses the speakers and enhances the tone for which Wurlitzer is justly famous.

The entire phonograph is immediately accessible for service. The dome lifts to a high position on a single latch, allowing quick adjustments for tone-arm and turntable. From the rear, durable, stamped steel panels permit free and easy access to all interior areas.

The Wurlitzer Carousel mechanism incorporates continuing improvements as the result of time-tested operation. Maximum dependability and low cost service are assured.

Whether your requirements are 200, 104 or 100-selection phonographs, you have the choice of Wurlitzer famed true Stereophonic Sound or wide range High Fidelity. The long-playing Sonotone stylus, standard on all models, permits playing stereophonic or monophonic records intermixed.

Be sure you take the time to see and hear the wonderful new Wurlitzer 2500 in all its pleasing colors and choice of music systems. You will find that the breathtaking beauty of these phonographs demands attention — inspires play. When you listen to the music, realistically re-created, you are sure to agree . . . here is the **ULTIMATE IN AUTOMATIC MUSIC** — and for the same reason — **THE ABSOLUTE ALL-TIME HIGH IN PHONOGRAPH EARNING POWER.**
