

Wurlitzer 2600

TWO HUNDRED OR ONE HUNDRED SELECTIONS

WURLITZER 2600

*A Full-Size, Extra-Feature
Phonograph Priced to Make
It Your Best Investment
in Automatic Music*

The Wurlitzer 2600 was designed with these concepts in mind:

A coin-operated phonograph is a public entertainment instrument, purchased and operated by its owner for a commendable commercial reason — to make money.

It must be large enough and attractive enough to command attention on location. The Wurlitzer 2600 is a full-size phonograph — packed with play appeal.

It must produce a wide range of pleasing tone that attracts listeners. The Wurlitzer 2600 does. It is backed by 105 years of musical experience.

Today's phonograph must sell itself on location. The Wurlitzer 2600 does — by means of a lighted display panel which is interchangeable for Personalization of the Location, Music of the Week, Featured Albums, Ten Top Tunes, or any desired display.

A phonograph must function properly and continuously to produce top earnings. Wurlitzer engineering has gone all out to insure that this new 2600 will.

In addition to these money-making features, Wurlitzer offers as standard equipment:

Automatic volume level, controls both channels. Balance control and individual treble and bass controls for each channel.

Combination monophonic-stereophonic amplifier with full power from each channel!

33 - 45 RPM intermix play! Permits using the best music from either speed 7-inch record!

Flexible four-coin mechanism (5, 10, 25, 50c) and a new swing-out coin rejector for easy adjustment!

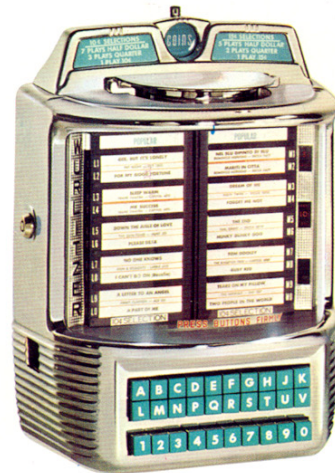

Double dome supports releasable from either side!

Easy front and rear service access! Quickly removable metal rear doors fit snugly and latch easily.

It all adds up to greater value for your money — compounded by stand-out features that have distinguished Wurlitzer for years. As examples, the proven Carousel Mechanism, the time-saving service accessibility, plus famed Wurlitzer cabinet craftsmanship, to name but a few.

Compare the Wurlitzer 2600 for beauty, for tone, for size, for play-promoting features, and whether you select the 200- or 100-selection mechanism, you can come to but one practical conclusion — this phonograph gives you **MORE FOR YOUR MONEY — WILL MAKE MORE MONEY FOR YOU.**

LOOK AT THESE WURLITZER FEATURES

33-45 RPM
INTERMIX

Positive mechanical action is entirely free of dependence upon electronic tubes. Vertical playing position means records are clamped to a flywheel-stabilized turntable — no slippage.

DUAL CHANNEL
AMPLIFIER

Simple throw-switch changes monophonic sound emanating from phonograph speakers to stereophonic sound utilizing remote stereo speakers.

EYE-ARRESTING
DOME DISPLAY
PANEL

Interchangeable plastic panels . . . for Location Personalization . . . Ten Top Tunes feature . . . Music of the Week . . . 33-45 RPM intermix, and Five Quick-Change title strips to identify special records.

TREBLE AND BASS
CONTROLS FOR EACH
CHANNEL

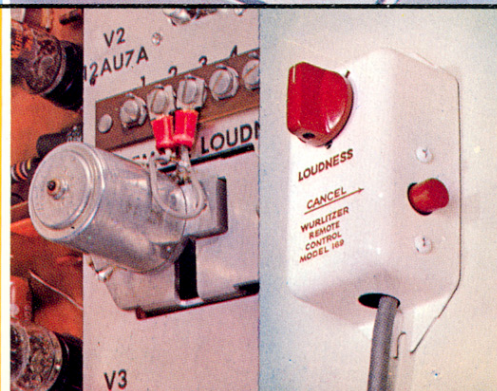

Individual Treble and Bass Controls for each channel enable operator to tailor the tone for proper balance in any location. A sensational Wurlitzer exclusive!

TEN
TOP TUNES
FEATURE

Single button actuates Ten Top Tunes for 50-cent coin. A play stimulator already proven to produce a veritable cascade of half-dollars. Optional.

MOTOR-DRIVEN
REMOTE VOLUME
CONTROL

Fully assembled drop-in installation, 5-wire connection. No shielding. Attractive damage-resistant steel case with volume control and cancel button. Optional.

WURLITZER Stereo Speakers

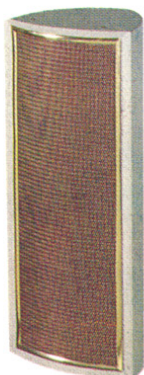

Wurlitzer offers five custom-designed speakers to fit every music system demand. You can assure the location complete, true stereo or full range high fidelity sound coverage regardless of its size, shape or area.
