# the Wurlitzer 2800

Available in 200 or 100 Selection Models

**NEW SIMPLIFIED SERVICING** 

**NEW HIGHER EARNING POWER** 

The Wurlitzer 2800, the best looking, best sounding phonograph we have ever built, is the latest product of a Wurlitzer policy deliberately established with the operator's interest in mind.

While brilliantly styled in step with the jet age, and incorporating many refinements and improvements over its predecessors, there are no changes just for change sake . . . no radical restyling aimed at depreciating the value of recent Wurlitzer models.

The Wurlitzer 2800 is a superb phonograph. Ingeniously designed to minimize service costs, it has more to offer the location owner, with an array of advanced features that makes it a favorite with patrons.

No words can adequately portray its beauty or define its ear pleasing stereophonic sound. Once you have seen and heard this splendid phonograph you will appreciate what Wurlitzer has done to make the Model 2800 a milestone in the history of instruments expressly created to make the swing to higher earnings.

The Only Phonograph Offering the Extra Earning Power of the

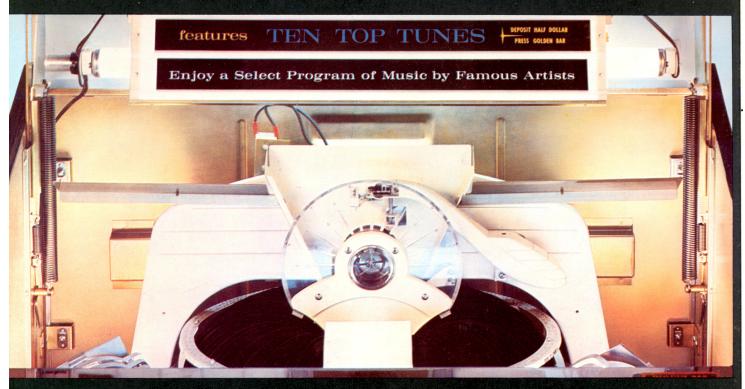

# TEN TOP TUNES FEATURE

Plus

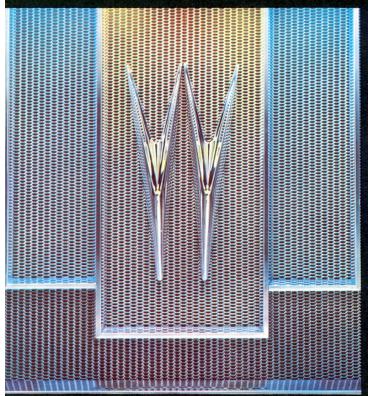

# *LP ALBUM SELECTIONS*

With a Wurlitzer Model 2800 you've got everything working for you that will turn music into money. A name that **means** music to millions. Jet age styling . . . a mechanism long recognized for its service-free performance . . . plus the greatest extra coin-coaxing features in juke box history — Ten Top Tunes for Fifty Cents — with the versatility that makes it possible to play pre-selected album tunes from the top LP's. Or, should you prefer to program little LP's with three tunes per side, this optional feature is available.

NEW SPRING-LOADED DOME — Unlock the dome and it lifts automatically to finger hold clearance. Raise to latch position with almost effortless action. It can't drop even if a spring should fail. As dome is opened, the title strip holder can be dropped into loaded position and is held firmly in place while strips are changed. Programming, record changing, needle replacement and tone arm adjustments are all quickly performed. Dome closes with the same hydraulic-like cushion action.

NEW COLORFUL GRILLE — Pastel lighted grille gleams with chrome finish. Die-cast "W" in tripanel framing conceals skillfully created sounding board.

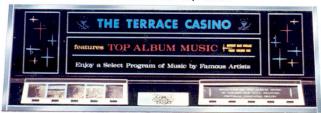

HUNDRED SELECTION DOME STYLING — This aero-styled silhouette of the Model 2810 one-hundred selection phonograph vividly depicts the complete die-cast frame which surrounds the program holder and the top display panel. This design, standard on both models, is accentuated by the Kashmir Walnut color of the grained Dinoweld side.
